ST. PATRICK'S COLLEGE
MAYNOOTH

18th Jan. 1898

Dear Sir.

Very I wish you to
accept a copy of an Essay on
"Motion: its Origin and Conservation",
which I have asked my publishers
to send to your address?

I cannot hope that you
will take any interest in many
papers of the nature, as they
present themselves to a lethargic

theologian. There may, however, be
other portions of the volume which
you may care to read. In any
case I am anxious to express
my gratitude for the letter you
wrote me in connection with
one portion of the subject.

I am

faithfully yours

Walter L. Dill

Prof. S. F. Fitzgerald.
