Dr Fitzgerald

Thank you very much for
your criticism albeit short
I meant to write "Simple Shear"
~~and~~ but was
~~too~~ too busy to correct
my own proofs ~~there~~. I am
inclined to think that you may
get rather disgusted with some
other errors which have crept

12/36

in through Careless ones or rather
want of time

Ayton gives a lecture to-
night on El. Locomotion
she has strict orders not
to disclose any ideas of an

original kind discovered by
us during the last year
The poor Israelites +

their buckraming without
straw are nowhere in
comparison

with knit records

Yours truly

Wm Perry
