Dear Fitzgerald

I have asked the publishers to send you a copy of the book on the calculus. I am very anxious to hear honest criticism - not of the book, it has many faults of its own that I know well - but of the idea underlying the book. If the idea is good, I have the means of pushing it into prominence. If the idea is bad I must give it up or alter it. I am going to Canada. Are you? When, by what ship?

Kind regards. Yours

Wemy
