8, UPPER HORNSEY RISE,

LONDON, N.

When we have been
~~together~~ that you ~~eat~~
habitually ^{at that time} ~~then~~ eat a
very much larger
proportion of meat food
than Hurley's rule
w^d. tolerate. But
whether this is so or
not, would it not be
well worth your while
to get expert advice
as Ball did?

I enclose a pamphlet

I published in 1874
about T.C.D. . . I had
forgotten all about it
~~but~~ till yesterday the
other day came across
this & one other copy.
Keep it, if you care
to keep it; & if not please
return it. It would
& I feel convinced be useless
now to get political
men educated again

to the point of carrying
any such reforms —
as they were once only
in the history of ~~the~~
Parliament, namely in
1854 & 1856. When the
Oxford & Cambridge
bills passed. Witness
the present feebleness
about University or
Universities in London.
