My dear Professor Fitzgerald,

Unless you wish to get me into trouble, you are bound to give a Friday Evening Discourse at the Royal Institution, in the forthcoming Session.

I think it is extremely probable you will remember why
I say so, but, in case you may have forgotten, let me remind you
that our friend, Oliver Lodge, in his Discourse on the "Discharge
of a Leyden Jar", in March last, said :--

"In this work of repetition and verification Prof.Fitz"gerald has, as related in a recent number of Nature (February 21,
p.391,) probably gone further; and if I may venture a suggestion
to your Honerary Secretary, I feel sure that a discourse on
Hertz's researches from Prof.Fitzgerald next year would be not
only acceptable to you, but would be highly conducive to the
progress of science."

Now, if you do not redeem the call thus made upon you, the Members of the Royal Institution are sure to lay the blame on
