Dear George,

Could you help me to
set on foot at any one
of the papers mentioned
below - The information
is to help a small
invention that I am
trying to complete.
The periodicals are not in
the Belfast Libraries
If you could influence
any owner of any of
them - perhaps the last

named to lend it me
I should be so much
obliged as he most careful
of it

There is also a book
which I lent you some
years ago by Auberon
Herbert on the Exam.
& Prize Systems - a
collection of opinions
from XIX century - if
you can lay hands on
it would you return
it to me
I should like very
much to hear your
Helmholtz lecture

but see no prospect of
being able to leave
London

we see very little of
Maurice now - which is
a great regret to me
Hoping Mrs FitzGerald
and family are well
Yours faithfully

If the loan is asking too
much could you arrange
with any books to enable me
an abstract - charging a
fee if appropriate
