Prof. Francis Fitzgerald M.A. F.T.C.D.  
Trinity College  
Dublin.

Dear Sir

I wrote you some time ago relative to my diplomas which I had lost when I left Manitoba to come to this Province. as I am at the present going through the course preparatory to becoming a P.S. I (Provincial Land Surveyor) These papers are necessary I have made the enclosed declaration & would be very much obliged if you would get me duplicates. I am at present interested in mining in this country, as there is no question this country is rich in minerals & tho' it is difficult to make much headway as Americans have a far greater chance of employment.

I would recommend that some

17/4

of the students in the engineering school  
in the future devote themselves more to  
the study of Mining, as for our part I  
do not like to see Americans taking the  
larger part of Mining Engineering work  
as they do here & Apica & other parts.

more especially as Railway work is getting  
overdone & Mining Development "only  
starting.

Hoping to hear shortly & with  
good wishes to yourself & to every body  
who may be there that remembers  
us.

Believe us  
yours truly

C. D. Dittwater way

I Charles Drinkwater Wray of Lillooet  
British Columbia make Oath and say. I  
matriculated at Trinity College, Dublin on January  
1880 and graduated in Arts in June 1883, and  
in Engineering in the fall of 1883. That I  
received certain diploma's for honors obtained  
during my college course to wit;

First class honors in Experimental Physics January 1882.

First class " " " " April 1882.

First class " " " " January 1883.

First class " " " " April 1883.

Also a certificate in Chemistry, Geology,  
Mining and Mineralogy of the School of  
Engineering in the fall of 1883.

That these certificates have been lost  
and I would desire that they may be replaced

I swear before me this
