May 21<sup>st</sup> 1890

My dear Fitzgerald

You may remember that we had a conversation some time ago about the causation of the convulsions of the brain and you ~~proposed~~ put forward some mechanical views which struck me very much at the time. Within the last few weeks a very remarkable paper has appeared on the subject & I would like

very much to speak to  
you on the subject if you  
could afford me the time.

Lecture at 4 o'clock  
but would come to you  
between 3 & 3.30 if you  
are not otherwise en-  
-gaged

Truly yours

D. J. Cunningham
