The Electrolysis Report will not be ready
before the Cardiff meeting (Griffith knows this
for the particulars can probably) & it will be short.

The fact is I have too much of other work
on hand just now & intend to resign the

Secretaryship of Cardiff.

My idea is that a few years before will be beneficial
& lead to a good start later when something has been done.

You can report that I am responsible for it
& if you don't mind it may be well to draw the money
to cover some slight expenses in circulars, which have
been incurred. The excess can be repaid later. Yours
J.L.
