I am asked to give a lecture at R.I
on the work of Hertz soon. Have you any
out of the way materials for the purpose? or any
slides for lending?

Some of the less known
expts I should especially like to demonstrate.

I expect you & Trator have lots of things
of one sort or another. It will not be necessary

to show again what you showed 2 years ago.
except that I should like to show you many ^{long} ~~short~~ ^{very} ~~simple~~ ^{interesting} ~~things~~
kaleidoscope or whatever you called it.
& any ^{other} ~~other~~ optical wave demonstrations

A
