

Liverpool Physical Society.

86, St. John's Rd,
Waterloo,

Oct 31. 1896.

23/33

Dear Prof. Lodge,

I forgot to tell
you that the Council of the Physical
Society gave us power to arrange
the date of the December meeting
to suit Fitzgerald.

Will you write to him,
or shall I do so? It would be
better, perhaps, for you to write, as
his promise was given to you
last Christmas. But I can

send him an official invitation, if you think he would like that best.

I suppose you would like the whole of the time next meeting. The date is Nov. 23.

Hay and Davies were put on the Council last meeting.

Yours sincerely,
James L. Howard.

I dare say you had forgotten all about this! we haven't!!

When you are over for exam at Xmas we want you to give us a talk. Any ~~day~~ evening will do.

I suppose you are writing a line to the Electrician re cables. We are not in a hurry to get the cables laid for.
