

My dear Francis

27/17

This translation
Ludwigs thought of its German
origin - it reads well nevertheless,
and the more I consider the paper
the more I am struck with its
beauty.

I hope you have had many
Golopis in your list. The paper
must be circulated among these.

Appropos. Let down the
name of W. Geo. Edmondson as
a subscriber to the Memoirs.

I have not heard a word
regarding Guleway - but perhaps they

intend it to assume the ~~same~~
mythical character ascribed by
Dusley to Toronto. - Remember me
kindly to Ronald when you write -

I had a kind note yesterday
from W. Barlow Sec. R. I. requesting
me to name a day in February for
my lecture - I will take the 1st. Friday

I trust W. Taylor is getting on
well.

Very sincerely yours

D. Russell

What would you intend to do with the Newblands
defer him to the second part?
