

could you not enclose a
off Bunsen's paper
copy ~~for me~~ to him? It

is a splendid one.

most sincerely yours

If it would not be too
much trouble I think it would
have a good effect if you

enclosed a copy of each
translation to the author on the
paper. It might be sent unaltered

My Dear Francis.

Thanks for the
Poff. which reached
me last night.

I now return the proof
of Bunsen's; the translation
appears to read well - I
have not meddled with
your queries, but have added
one or two of my own - I
remember a right there is
a long list of errata in
the next No. of Poff.

probably, there have been
attended to.

I send you the rest of
Beleuholz's papers.

I send you the
translation of Clauvius's
note.

Your arrangement
is the best that could be
devised —

If the Government
of the Harems be not smelling
you are particularly anxious

about the Jory dont send
it to me for by Heaven's
my hands are very full as
it is.

I wish you would be
kind enough to send me
won 12 prospectuses of
the Memoirs when you next
write.

Could you manage
to strike off a copy of Buisson
for me — you send the
manuscript to Heidelberg —
