My dear Francis.

I send you a most  
unstructured little article for  
next month's magazine - it  
is from the pen of Dubois  
although his name is not  
attached to it. It is with  
a thick load of such papers  
as Donovan's and will ~~for~~  
give a salutary correction  
to his lucubrations. The  
following note may appear

at the foot of the first page.

u  
In connexion with this lucid  
exposition of the views of Owen on  
a point of great importance and  
of some difficulty, ~~being~~ ~~readers~~  
certain your readers, ~~we would~~  
refer to what upon the same  
subject Phil. Mag. Vol. 3. p. 321.  
Ed.

most truly yours  
John Tyndall
