

Coopers Hill, Staines.

21st October 1891.

Railway Station "Egham".

4/20

Dear Sir,

The post of Demonstrator in Physics at this "The Royal Indian Engineering College" having become vacant I have to nominate a successor for appointment by the Secretary of State for India, and shall be very much obliged if you can help me to find a suitable candidate.

I beg to enclose two memoranda:-

The one showing the work the Demonstrator will have to do

The other the terms that have been sanctioned.

If you know of any one who would be

likely to be a suitable candidate I shall be very much obliged if you will kindly send him a copy of each of the two memoranda, and ask him to correspond with me direct.

Very truly yours

Alex Taylor

President R. I. E. College.

It is essential that the Demonstrator be a young man, and of a character and disposition likely to commend him to students of from 18 to 21 years of age.
