Mr. J. Towle of the Dublin Tramways,  
their Electrical Engineer, is willing to give  
the six lectures proposed for the £2.2.0  
a lecture I suggested. I suppose the Board  
will now authorise me to inform him  
that they appoint him Lecturer in <sup>Electric</sup> Tram-  
way Engineering in our Engineering School.

The negotiations with Mr. Ruddle are  
still pending and I would suggest that if  
they fall through no second lecturer be ap-  
pointed for this year, but that we try how  
the one gets on, for the present.

Yours sincerely  
Geo. R. Fitzgerald
