Dear Prof. Fitzgerald

It is proposed to hold a committee meeting of Science Progress ^{one day} during June. Is there any day in which you are likely to be able to be present? If so I should preferably select it, & I have written to the same effect to Prof

S Mas.

Should you not be able to attend I wish send you a précis of the proceedings. The business will be chiefly to settle the papers for the summer numbers.

I was sorry to find that Prof. Beuhold was unwilling to join us, but I have not thought it at present necessary to trouble you, as Prof. Rücker has kindly given me a good deal

of help here - I am anxious that
something done in light - perhaps Mr.
Preston could help in this?

Yours truly

Walter Farnum
