

The editorial committee
as a representative of
Physics -

I am anxious

that undue preponderance
shall not be given to
biological subjects,

& if you could see

your way to accept

this invitation it
would materially
strengthen our hands -

The acceptance would
not involve onerous
duties, or in any way

ROYAL COLLEGE OF SCIENCE, LONDON,

SOUTH KENSINGTON, S.W.

14/III/94

X/47

Dear Prof. Fitzerald

You will have
probably seen, the
first issue of Science
progress' by this.

I am writing to ask
if you will join

implicate you with the printing of
copy. Only in doubtful cases, if
such should arise, I should have
someone whom I could officiously
consult.

If you consent, & would wish me
to do so, I would wish Post Remond
to also join & thus there would
probably be no need for you to
be troubled with correspondence at all.

I should add that the position is
an honorary one, but that
as many of the members as conveniently
can, are asked to meet 4 times a year
in London to state any views they may
have to offer as to those any desirable
changes or other matters - a small fee
is attached (if given) to this -
apologizing for troubling you

Yours truly
Wm. Farmer
