SCHOOL OF ENGINEERING,

Trinity College, Dublin,

31. Oct., 1900

7/64

Bursar & Jct. dis from
I have had medal to return & which
paid for not
I hear Mahaffy

I am writing at your suggestion to
remind you that the medal which was
of too small a density was assayed by Messrs
Johnson Matthey & Co. and they report it as
under 20 carat instead of 22 carat. I have
been ordered to demand another instead of
it from Messrs Johnson, ~~but~~ I would re-
mind the Board that if they wish to
get the medals made this year by another
firm it will be necessary to get the dies
from Messrs Johnson soon, or there will not
be time enough to strike all the required
medals before commencement in December.

Yours faithfully
Geo. Ross Fitzgibbon
