Dear Fitzgerald

I am trying to
get more room for
practical work in
Physics.

Will you kindly
give me the follow-
ing information as to
your laboratory?

(1) What is the
total floor space,
from wall to wall
devoted to Physics?

(2) How many
square feet are

employed for lecture
purposes: including
Apparatus and Display
Cabinet?

(3) How many for
Stores?

(4) What is the
quoted no. of Students
you have ever had
working at practice
Topics at the same
time?

A very rough es-
timate sent from will
be greatly obliged

Yours
Wm. Guthrie
