Dear Fitz Gerald

What about the
arrangements for the
London Matricⁿ. I expect
I shall find it difficult
to go up on Wednesday
but probably could manage
the Friday. If we are

for Wilberforce to do the
heat & light work we
then there would be no
need for any one to go
up on Wednesday or
yet deemed desirable
Wilberforce could go and
represent us. I should
then go up on the Friday
and meet the other assis-
tants unless you will

Naturally be up there I have asked
Muller to put an Iron case
additional Assistant one is
wanted and he does the work well
I will arrange for him to send
his work home and you will
have Blakesley and Wayborn
I have had a letter from Preston
which you will answer when less
busy He wants some testimonial
of Montreal & I really cannot
give him one I have weekly seen
one or two of his papers and had
some letters about the Office
